Educational Background

Queen's University, September 2013- 2017

Kingston, Ontario

Bachelor of Science Honours. Environmental Science.

Accomplishments

Kingston General Hospital Bursary

Dean's List of Academic Achievement

Publications

Heavy metals in the near-road environment: Results of semi-continuous monitoring of ambient particulate matter in the greater Toronto and Hamilton area (2019). *Atmospheric Environment: X*, 1, 100005.

Evaluation of a passive sampling method for long-term continuous monitoring of volatile organic compounds in urban environments (2018). *Environmental science & technology*, 52(18), 10580-10589.

Work Experience

Data Analyst, 2016-2018

Ontario's Ministry of the Environment and Climate Change, Toronto, Ontario

Successfully published in two scientific journals, completed the chapter on ozone trends in Canada and the United States for the 2016 and 2017 Air Quality Reports, and submitted a proposal for the federal government advising reconsideration of the current particulate matter standards.

Volunteer Work

Pediatric Cancer Unit Volunteer, 2013-2017

Kingston General Hospital, Kingston, Ontario

Volunteered in the pediatric unit in 2014 until being asked to transfer to the specialized pediatric cancer unit. I provided support and companionship to patients and their families. I have presented to and trained large groups of incoming volunteers.

Adoption Assistant, 2014-2017

Kingston Animal Rescue, Kingston, Ontario

Assisted in the campaigning and adoption process of pets.
